

The Anomaly scan is considered as the most important scan in pregnancy and it is medico-legally important to perform it to the best of standards, with proper documentation of images. Enhance your skills at detecting birth defects to the standards required by the **Fetal Medicine Foundation UK** and the International Society of Ultrasound in Obstetrics and Gynaecology (ISUOG). **The course is useful for all those who are involved in obstetric scanning. All Faculty are accredited by FMF-UK**

The FMF-UK certified course for 18-23 weeks Anomaly scan will satisfy the theory requirements for the Certification and for those who are eligible for the practical exam (ie those whose images have been approved by FMF-UK ) will have a chance to appear for the Practical Assessment.

#### Please Note

Only those who have already submitted the log book of images to FMF - UK and images have been approved (please contact us or visit [fetalmedicine.org/training-n-certification/certificates-of-competence/the-18-23-weeks-scan](http://fetalmedicine.org/training-n-certification/certificates-of-competence/the-18-23-weeks-scan) for details on submission of images) are eligible for the practical exam providing this has been done by 29th March 2017.

#### The requirements for obtaining the FMF certificate of competence in the 18-23 weeks scan are:

1. Attendance of FMF Approved Theory course (30th April 2017)
2. Online submission of a log-book of a series of images from one normal fetus to FMF-UK (it takes approximately 2 weeks for approval of images post submission to [anomaly@fetalmedicine.org](mailto:anomaly@fetalmedicine.org))
3. Demonstration to a FMF approved examiner of competence in carrying out a 18-23 weeks scan and good knowledge of the diagnosis and management of a wide spectrum of fetal abnormalities (Dr Anita Kaul, Dr Prathima Radhakrishnan are approved examiners who will be present on 29th April 2017 to conduct the practical exam)

#### Additional Requirements for candidates wishing to take the practical examination in India.

I. Registration with PNDT appropriate authority (South East District, Saket, Delhi) at least 30 days in advance of the date of practical examination (29th April 2017).

Documents required for PNDT registration, to be submitted at Apollo Centre for Fetal Medicine, Indraprastha Apollo Hospital, New Delhi for getting registration for the hands-on

1. Affidavit on INR 10 stamp paper attested by notary.
2. Copy of qualification certificates (MBBS/MD/MS) self attested.
3. Copy of DMC / MCI registration (self attested).
